

Environmental Policy

Renergy Solutions Ltd — Solar PV, Battery Storage, Heat Pumps & EV Charging

1. Purpose

Renergy Solutions Ltd recognises its responsibility to protect the environment and is committed to minimising the impact of its activities. As an installer of renewable energy systems, sustainability sits at the heart of what we do. This Environmental Policy sets out our approach to operating in a sustainable and responsible manner.

2. Our Commitments

We will:

- **Compliance** – Comply with all relevant environmental legislation, regulations, and other requirements applicable to our operations.
- **Pollution Prevention** – Actively prevent pollution through responsible use of materials, energy, and natural resources.
- **Carbon Reduction** – Monitor and reduce our carbon footprint by increasing energy efficiency and encouraging the use of renewable energy.
- **Waste Management** – Minimise waste by reducing, reusing, and recycling wherever possible, including the responsible disposal and recycling of packaging and end-of-life equipment.
- **Resource Efficiency** – Use materials efficiently and responsibly, promoting sustainable procurement practices.
- **Sustainable Products & Services** – Promote products and services that support low-carbon, renewable, and environmentally responsible solutions.
- **Continuous Improvement** – Set objectives and targets for environmental performance and regularly review progress.
- **Awareness & Training** – Provide staff with training and resources to ensure they understand and contribute to our environmental goals.
- **Community & Stakeholders** – Engage with clients, suppliers, and the wider community to promote sustainability and environmental awareness.

3. Implementation

- Management will take overall responsibility for the Environmental Policy and ensure its effective implementation.
- Environmental objectives and targets will be set annually and reviewed at management meetings.
- Employees are expected to follow this policy and contribute to achieving environmental goals.

4. Monitoring & Review

- Performance will be monitored through audits, data collection, and feedback.

- The policy will be reviewed at least annually, or sooner if legislation or business activities change significantly.

5. Statement

This Environmental Policy reflects Reenergy Solutions' commitment to sustainability and continuous improvement. It is communicated to all employees and made available to customers, suppliers, and the public upon request.
